2020 has proven to be a very challenging year and as always, we would like to take this opportunity to thank you for your partnership and continued confidence in Marlow.

There was some good news over the Christmas Holidays with the UK and the EU striking a trade deal. Now that the UK has left the EU this importantly removes the issue of a duty on our products.

There are obviously other factors to consider in our future trade – notably import documentation and VAT. We know that some customers are readily able to manage these new import requirements but are also conscious that for others it will be a burden. To that end we have partnered with a new freight company who will allow us to maintain "simple, frictionless trade", ensuring that dealing with Marlow is as simple as it was pre-Brexit.

Where necessary we have made arrangements to ship DDP – this means that we take care of all import procedures, customs declarations and VAT. Nothing will change with respect to how you buy from us and we hope that this will put your mind at ease and allow continued growth of our business relations.

However, as always at this time it is important for us to assess our pricing policy for the coming year and so please take this letter as notification of a small increase of 3.5% on all Dyneema products and 2.5% on everything else effective from 1st January 2021.

Finally, due to the continued pressure COVID is having on freight costs we need to amend our carriage paid level to €2,500. Orders below this value we can still ship but will have to charge freight back at cost or you can arrange collection with a nominated carrier.

As with all businesses, pressure on raw material prices and freight costs is an issue, but we feel these small increases are realistic and are confident that barring significant shocks to the economy and exchange rates, can be held throughout 2021.

Despite the global pandemic and business impact this has caused, we are proud that as ever, 2020 saw us continue to invest in machinery, stocks and most exciting of all new offices. We have now moved into a spacious, purpose built new office extension that affords us more office space and more production space. We sincerely hope that when travel is once again allowed, you will be able to visit us and enjoy these great new facilities.

We have attached your new pricelist in Excel format which can be easily imported into most software using the "Product tab" which is a list format of all of the items. Also attached is our new brochure which highlights our Blue Ocean Initiative to reduce our impact on the environment and I am pleased to say that as of today 52% of the leisure marine range is made from sustainable or recycled raw materials. With further plans to extend this in 2021.

Finally, we wish to thank you for your valued business and know that you will understand the necessity for this price increase and look forward to growing our business with you in 2021.

If you have any further questions or queries concerning the above please do not hesitate to contact us.

Yours sincerely,

Paul Honess
